

A30

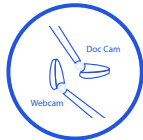

All-In-One Video Conference Camera

Superior Audio Quality

Microphone & Speaker

Doc Cam & Webcam

13 MP

4K Ultra HD

23X Digital Zoom

AI Image Rotation

Auxiliary Microphone & USB Camera Inputs

HDMI & USB

5-Year Warranty

The A30 is an all-in-one video conference camera that enhances collaboration by combining a web camera, document camera, microphone, and speaker! Users can seamlessly pivot between doc cam and webcam modes without having to switch devices, while the built-in microphone and speaker minimize set up time and can be used in work from home, Bring Your Own Meeting (BYOM) or small conference room settings. The A30 supports live streaming, demos, small group collaboration, and more. With easy-to-use plug-n-play connectivity, the A30 speaker connects to computers and monitors to provide clear audio up to 20 feet away and allows connection to a wireless microphone via line in for versatile recording.

Superior Audio with AI Technology

The integration of the camera, microphone and speaker minimizes setup time and optimizes the audio and video experience. The high-quality AI audio technology, our exclusive algorithm, produces clear sound with echo cancellation while minimizing background noise, creating a fantastic collaboration experience! Great for remote work, huddle rooms, and Bring Your Own Meeting (BYOM) settings.

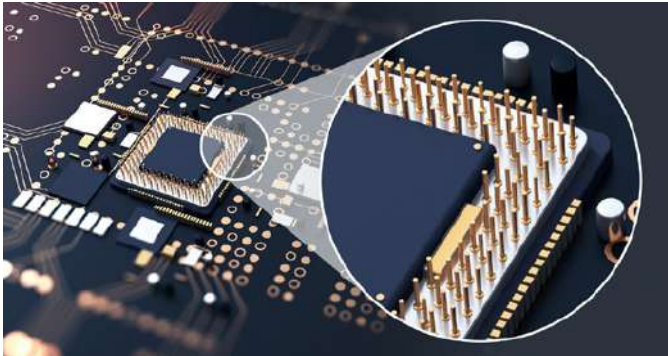

Multipurpose Conference Audio Solution

The A30 microphone and speaker enhance collaboration and create greater meeting equality in small conference rooms. It connects to computers and monitors to provide clear audio up to 20 feet away, amplifying the sound for all meeting participants. The audio recording capabilities support Bring Your Own Meeting (BYOM) settings, demos, live streaming and more. The A30 allows connection to wireless microphone via line in for versatile recording.

4K Camera Quality

The 13-megapixel camera delivers impressive resolution in 4K with a 110° FOV lens, allowing the A30 to capture all details perfectly.

Flexible Camera Angles

The extendable arm elongates and folds to capture multiple angles. The smart design also includes an adjustable camera head, LED light, and rotatable base.

Picture-in-Picture Interface

The A30 is equipped with both HDMI and USB outputs for seamless video streaming. Presenters can also connect an additional USB camera to the USB Type-A port to enable picture-in-picture video, allowing for live content to be shown alongside live video streams. The A30 is fully compatible with all major video-conferencing platforms.

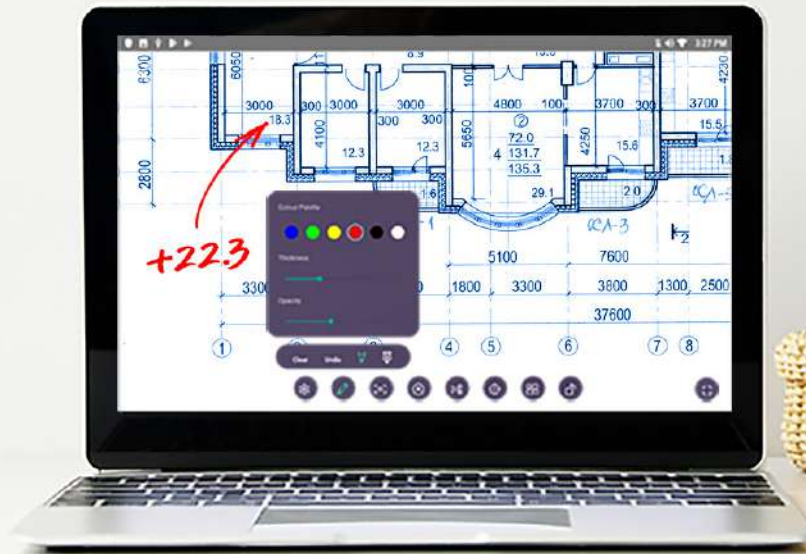

Video Conferencing or Doc Cam Modes

The automatic image rotation allows a seamless experience to switch from conference camera mode that works with all popular video conferencing platforms, to a document camera and back! The image flips automatically when uplifting the camera head, allowing it to always be in the correct direction.

Compatible with AVerTouch software

Simply connect your A30 with one touch to immediately start sharing content and annotate as you go. With its easy and intuitive functions, as well as cloud sync to provide automatic backups of your annotations, captures, and recordings, this software will help enrich the overall experience with unprecedented interactivity.

With the A30, you can display...

-  Film slides / Filmstrips
-  Real-time movements
-  Documents
-  3D objects
-  X-rays

Show images to your audience through...

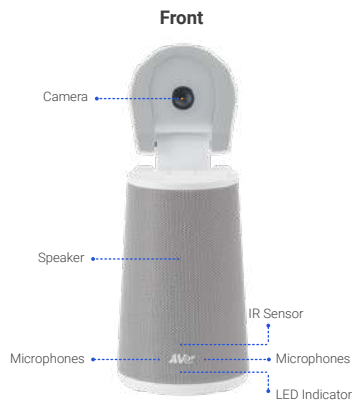

-  Interactive flat panel
-  TV monitor
-  Projection screen
-  Digital monitor

Specifications
